PROFILE

Computer Engineering graduate from LTCE with a strong foundation in software development, AI, IoT, and full-stack web development. Proficient in Python, SQL, and the MERN stack, with hands-on experience building scalable, user-centric applications. Served as Secretary of the Coding Club, organizing technical events and mentoring peers. A quick learner with strong problem-solving and teamwork skills, eager to contribute to innovative technology solutions.

EDUCATION

Bachelor of Computer Engineering
Lokmanya Tilak College of Engineering
CGPA - 7.15 Year - 2022-2026

12th HSC
Ramniranjan Jhunjhunwala College, Ghatkopar
Percentage: 62.67% Year - 2021-2022

10th SSC
Guru Nanak High School, Bhandup
Percentage: 81.60% Year - 2019-2020

TECHNICAL SKILLS

- **Programming Languages:** Python
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Flask, TensorFlow, Pandas, NumPy, React, Node.js
- **Databases:** MySQL, MongoDB
- **Tools:** Power BI, Excel, Git
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio, IntelliJ IDE, Arduino

CERTIFICATIONS

- Data Analytics - IBM SkillsBuild CSRBOX
- Python Programming, Artificial Intelligence and SAP Conversational AI Chatbot - Edunet Foundation
- TalentBattle Python - Certificate (2025)

ACHIEVEMENTS

- Won 1st Prize at Tantragyan National Level Hackathon for innovative project development.
- Received a Letter of Appreciation for contribution to LTCE Computer Department website project
- Served as Secretary of Coding Club (2024–25)

PROJECTS

RestoAI: Restaurant Management System
React, Node.js, MongoDB, Socket.IO, Redis, Gemini
- Built a full-stack restaurant platform with QR ordering, POS, inventory, and real-time order tracking.
- Added JWT authentication, Redis caching, Gemini AI assistance, and OpenCV attendance.
- Deployment: **https://resto-ai-ten.vercel.app**

TrendHive: E-Commerce Platform
React, Node.js, Express.js, MongoDB, JWT, Razorpay
- Developed customer, shopkeeper, and admin portals with secure REST APIs.
- Integrated Razorpay payments, inventory, image uploads, and role-based access.
- Deployment: **https://trendhive-rf2j.vercel.app**

Enterprise RAG Assistant
Python, FastAPI, LangChain, ChromaDB, Ollama, React
- Built a RAG platform for PDF processing, semantic search, and document-based Q&A.
- Implemented local LLM inference, citations, JWT authentication, and user-isolated documents.
- Deployment: **https://enterprise-rag-assistant-self.vercel.app/login**

INTERNSHIP

CodeSprint - Python Developer Intern | June 2024 - August 2024
- Worked on Python-based projects, including scripting, automation, and data analysis.
- Developed applications and features using Python libraries and frameworks.

IBM SkillsBuild Summer Internship | 24 June–5 August (2024)
- Completed a 6-week Data Analytics internship in collaboration with IBM SkillsBuild and CSRBOX
- Performed data analysis, cleaning, and visualization using tools like Python, Excel, and Power BI
- Gained hands-on experience in EDA, dashboard creation, and data-driven decision making
